GENERAL INFORMATION

1. MEDICAL SERVICE PROVIDERS REGISTRATION REQUIREMENTS WITH THE COMPENSATION FUND

- The Compensation Fund requires that any Medical Service Provider, treating patients in terms of the COID Act, must be registered with The Compensation Fund through the submission of copies of the following documents to the nearest labour centre:
 - a. A duly completed original Banking Details form (WAC 33) (download in PDF from www.labour.gov.za)
 - b. The latest copy of valid BHF certificate
 - c. Recent bank statement with bank stamp or bank letter
 - d. Proof of practice address not older than 3 months.
 - e. SARS VAT registration number/ certificate if VAT registered. (If this is not provided the medical practitioner will be registered as a non-VAT vendor)
 - f. A power of attorney is required if the MSP has appointed a third party to do their administration of their COID claims.

2. REGISTERING WITH THE COMPENSATION FUND AS AN ONLINE SYSTEM USER FOR MEDICAL SERVICE PROVIDERS

- To register as an online user of the claims processing system, COMPEASY, the following steps must be followed:
 - a. Register as an online user with the Department of Employment and Labour website (www.labour.gov.za)
 - b. Register on the CompEasy application having the following documents to upload
 - A certified copy of identity document (not older than a month from the date of application)
 - Latest copy of valid BHF certificate
 - Proof of address not older than 3 months
- In the case where a medical service provider has appointed a third party to administer their COID claims with the Fund, the following ADDITIONAL documents must be uploaded:
 - An appointment letter for proxy (the template is available online)
 - The proxy's certified identity document (not older than a month from the date of application)
 - There are instructions online to guide a user on successfully registering (www.compeasy.gov.za)

3. THIRD PARTIES TRANSACTING ON BEHALF OF MEDICAL SERVICE PROVIDERS

- Third Parties that provide administration services on behalf of medical service providers must take note of the following:
 - a. They must be able to obtain and make available copies of the original claim documents and medical invoices from medical service providers.
 - b. They must keep such records in their original state as received from the medical service provider and must furnish the Compensation Commissioner with such documents on request for the purposes of auditing.
- The Fund will not provide or disclose any information related to a medical service provider, represented by a third party, where such information relates to a period prior to them being contracting to a third party.

4. THE EMPLOYEE AND THE MEDICAL SERVICE PROVIDER

Medical Service Providers are encouraged to take note of the following guidance when treating patients in terms of the Compensation for Occupational Injuries and Diseases Act of 1993 (COID Act):

- a. Employees as defined in the COID Act of 1993, are generally free to choose their preferred Medical Service Provider, provided that such choice is exercised reasonably and without prejudice to the employee or the Compensation Fund.
 - An exception applies where an employer, with the approval of the Compensation Fund, provides comprehensive medical aid facilities to its employees, e.g. Hospital, nursing and other medical services, as contemplated in Section 78 of the COID Act, in such cases, treatment arrangements may differ.
- b. In terms of Section 42 of the COID Act, the Compensation Fund may refer an injured employee to a specialist medical service provider designated by the Director General for a medical examination and report. Medical Service providers should cooperate with such referrals where they occur.
- c. Medical Service Providers are reminded that in accordance with section 76(3)(b) of the COID Act, medical expenses may not be recovered from the employee. Providers should therefore avoid billing employees directly for services that fall within accepted COID claims.
- d. Where a change of Medical Service Providers occurs, the first treating doctor is generally regarded as the principal treating doctor, unless the case is transferred to a specialist.
- e. To promote continuity of care and avoid disputes, Medical Service Providers are encouraged not to treat an employee who is already under the care of another practitioner without first consulting or informing the principal treating doctor.
- f. Any changes of medical service providers should be supported by sufficient reasons, and such reasons should be communicated to the Compensation Fund to ensure clarity and proper case management.
- g. In line to section 5 of the National Health Act no 61 of 2003, a health care provider may not refuse a person emergency medical treatment. In emergency situations, Medical Service Providers are not required to obtain prior authorisation from the Compensation Fund before rendering such treatment even if the claim has not yet been registered or accepted.

employment & labour

Department:

REPUBLIC OF SOUTH AFRICA

- h. Employees who seek medical treatment do so at their own risk where they have not informed their employer and/or the Compensation Fund of possible grounds for a COID claim. Medical Service Providers should be aware that, under such circumstances, The Compensation Fund may not accept responsibility for the settlements of the medical expenses incurred.
- i. Where a claim is repudiated by the Compensation Fund, the employee is regarded in the same position as any other member of the public in respect of payment for medical services rendered.

5. OVERVIEW OF THE COID CLAIMS PROCESS

- All claims lodged in the prescribed manner with the Compensation Fund are subjected to the following process:
 - a. New claims are registered by the Employers with the Compensation Fund in the prescribed manner. Details and progress of the claim can be viewed on the online processing system for registered users of the system.
 - b. Proof of identity is required through the submission of a copy of an Identity document/card, will be required for a claim to be registered with the Compensation Fund. In the case of foreign nationals, the proof of identity (passport) must be certified.
 - c. All supporting documentation submitted to the Compensation Fund must reflect the identity and claim numbers of the employee.
 - d. Once an incident is reported to the Fund a claims number will be allocated to acknowledge receipt, but this does not imply acceptance of liability for the claim.
 - e. On acceptance of liability for claims in terms of the COID Act, all reasonable medical expenses, arising from the related medical condition shall be paid to medical service providers, and in accordance to approved tariffs, billing rules and procedures as published in the medical tariff gazettes of the Compensation Fund.
 - f. If a claim is repudiated in terms of the COID Act, medical expenses, will not be payable. The employer and the employee will be informed of this decision, and the injured employee will be liable for payment of medical costs incurred.
 - g. In the event of insufficient claim information being made available to the Compensation Fund, the claim will be rejected until the outstanding information is submitted and liability can be determined.
 - h. Manner of payment of medical benefits for Compensation Fund claims, where liability has been accepted (adjudicated) on or after 1 April 2025.
 - All medical invoices for accepted claims must be submitted, in the prescribed manner within 36 months of the date of acceptance of liability.
 - And or within 36 months from the date of service, which ever may apply.
 - Medical invoices received after said time frame will be considered as late submission of invoices and may be rejected.
 - i. All service providers should be registered on the Compensation Fund claims processing system to capture medical invoices and medical reports for medical services rendered.
 - j. Submission of medical reports and invoices is permitted solely for claims where liability has been accepted by the Compensation Fund and where payment of reasonable medical expenses is authorised.

6. BILLING REQUIREMENTS FOR MEDICAL SERVICES PROVIDED TO INJURED OR DISEASED EMPLOYEES

Submission of Medical Reports

- In terms of section 74(1)-(5) of the Compensation for Occupational Injuries and Diseases Act, 1993 (COIDA Act), every Medical Service Provider shall submit the prescribed medical reports when claiming from the Compensation Fund.
- The First Medical Report (W.CL 4), completed after the initial consultation, shall:
 - Confirm the clinical description of the injury or disease.
 - Detail all procedures performed; and
 - Record all referrals to other medical service providers, where applicable.
- All follow up consultations shall be recorded on a Progress Medical Report (W.CL 5). Any procedure or operation performed during the reporting period shall be clearly detailed, including all referrals, where applicable.
- A Progress Medical Report shall cover a maximum period of thirty (30) days, except where a procedure has been performed during that period, in which case an additional operation report shall be submitted.
- Where multiple procedures are performed on the same date of service, only one medical report shall be submitted in respect of that service date.
- Upon stabilisation of the injury or disease, a Final Medical Report (W.CL 5F) shall be completed and submitted
- Medical Service Providers shall attach a medical report or other appropriate medical documentation to every claim submitted to the Compensation Fund.
- Medical Service Providers shall retain copies of all submitted medical reports and shall make such records available to the Compensation Commissioner upon request.
- With effect from 1 April 2025, **ALL** medical practitioners shall submit relevant patient records together with medical invoices for services rendered. **(This includes hospitals, anaesthetists and any other practitioners that have not previously been required to do so)**

Submission of Medical Invoices

- Medical invoices shall be submitted only in respect of claims for which liability has been formally accepted by the Compensation Fund and where payment of reasonable medical expenses has been authorised.
- The submission of medical invoices without the required accompanying medical documentation shall be strictly prohibited and shall result in rejection of the invoice.
- Duplicate invoices shall not be submitted under any circumstances.
- Running accounts or statements shall not be accepted and shall be rejected at system level.

Minimum Information Requirements for Medical Invoices

Every medical invoice submitted to the Compensation Fund shall, at a minimum, include the following information:

- The allocated Compensation Fund claim number.
- The full name, surname and identity number of the employee.
- The name and Compensation Fund registration number of the employer, as reflected on the Employer's Report of Accident (W.CL 2);

employment & labour

Department:
Employment and Labour
REPUBLIC OF SOUTH AFRICA

- The date of accident.
- The date(s) of service rendered.
- The Medical Service Provider's BHF practice number.
- The VAT registration number of the Medical Service Provider, where applicable.
- The applicable tariff code(s) as published in the approved tariff gazettes.
- The amount claimed per tariff code, quantity, total amount claimed including the correct sequencing of modifiers where applicable.
- A unique invoice number.

(Medical invoices that do not comply with the prescribed minimum information requirements shall be rejected and shall not be processed for payment).

VAT and Tariff Application

- Published tariff amounts shall be assessed exclusive of VAT.
- VAT shall be applied only where the Medical Service Provider is a registered VAT vendor and has supplied a valid VAT registration number on the invoice.
- Where no VAT registration number is provided, the Medical Service Provider shall be regarded as a non-VAT vendor and VAT shall not be applied.
- Notwithstanding the above, the following tariffs shall be processed as VAT inclusive:
 - Per diem tariffs applicable to private hospitals; and
 - VAT exempt tariff codes applicable to private ambulance services.

Pharmaceuticals and Referrals

- All pharmaceutical claims shall be submitted in accordance with the NAPPI file and shall be accompanied by the original prescription(s).
- Where a referral is required, the referring practitioner's referral letter shall accompany the medical invoice.

Enforcement and Non-Compliance

- The Compensation Fund shall withhold payment of any medical invoice that fails to comply with the billing and submission requirements prescribed in this document and as published in the Government Gazette.
- Noncompliance with these billing requirements shall result in rejection of claims and may result in further remedial or enforcement action by the Compensation Fund.

7. INVOICING REQUIREMENT ON MEDICAL CLAIMS FOR ICD-10 CODES

As part of improved delivery service and efficiency, The Compensation Fund has implemented ICD-10 rules that must be adhered to when submitting medical invoices. This will be rolled out in a phased approach. The first phase currently active on the system is outlined below:

ICD-10 Validations

ICD-10 validations will apply in accordance with the national ICD-10 Phase 3 and Phase 4.1 requirements and include the following:

- Valid ICD-10 codes as per the SA ICD-10 Master Industry Table
- Maximum level of specificity: ICD-10 codes must be valid at the correct 3-, 4-, or 5-character level
- Valid ICD-10 primary codes (codes not valid as primary will be rejected)
- Compliance with the dagger and asterisk rule

employment & labour

Department;
Employment and Labour
REPUBLIC OF SOUTH AFRICA

- Compliance with sequelae coding rules
- Age edits for ICD-10 codes with age requirements
- Gender edits
- All injury and poisoning codes must be accompanied by external cause codes

Please ensure that you are familiar with the above requirements to avoid unnecessary claim rejections. The date and requirements for the next phase will be communicated in due course.

Definition				
Feet				
SACH	The external keel of a foot prosthesis is the firm part on the bottom of the prosthesis, extending from the heel to the toe. The keel is both a structural support and a shock absorber as the patient transfers weight from heel to toe while walking. The SACH foot has a rubber heel wedge that lets the ankle move by compressing under weight bearing during the start of stance walking phase. It is available in different heel heights allowing wearing rath various types of shoes.			
SACK composite	Flexible keel prosthetic feet are more advanced than solid ankle cushioned heel or SACH feet. However, they do not return energy in the way a dynamic response foot would. It offers cushioning and absorption of energy but does not store and return the same amount of energy.			
Single axis	An articulated single axis foot and ankle prosthesis uses a hinge to allow the ankle to dorsiflex and plantar flex, or move up and down. Single axis feet do this with a hinge in the prosthesis at about the location of the transverse tarsal joint on the human foot. Because the prosthesis moves in a single axis, specifically up and down, movement is in the sagittal plane only. Single axis feet differ from solid ankle cushion heel foot, or SACH, feet in several ways.			

Multi axis	A multiaxial foot can move in multiple planes of direction, providing its user the ability to walk on uneven surfaces. This differs from a single axis foot prosthesis that allows only plantar flexion and dorsiflexion in the sagittal plane. This design allows the forefoot of the foot or ankle mechanism to move appropriately on uneven surfaces, much as a human foot would.
ESAR	The foot uses a carbon and/or nylon flexible internal keel, a firm yet flexible plate located inside the sole of the prosthesis, extending from the heel to the toe. The keel is both a structural support and a shock absorber as the patient transfers weight from heel to toe while walking. The dual spring action of the keel gives a smooth transition from heel to toe as the foot moves through a walking gait, giving additional stability and confidence to its wearer.
Active suspension	Elevated vacuum suspension which controls and reduces volume fluctuations during ambulation. The suspension is a mechanism which incorporates the foot and socket suction suspension to achieve the desired elevated vacuum.
Axial rotation	An axial rotation unit allows a prosthetic limb to twist to the right or the left, helping people walk more naturally. The axial rotation accommodate rotational forces during heel strike, mid stance, terminal stance and pre-swing. Properly functioning axial rotation devices allow a socket to relieve pressure on the stump as the patient moves.
Low profile	Decreased build height which accommodates longer residual limbs with limited ground clearance
ESAR - multi axial	A multiaxial foot primarily manufactured out of carbon fiber which can move in multiple planes of direction, providing its user the ability to walk on uneven surfaces. This design allows the forefoot of the foot or ankle mechanism to move appropriately on uneven surfaces, much as a human foot would.
Carbon pylon	One end of the pylon directly fits into the residual limb socket, and the other end fits into the prosthetic foot. The aim of the prosthetic pylon is to store and release energy additional energy to the user. The pylon also acts as a shock absorber.
Heel adjustable	This code describes prosthetic foot with a heel height that the patient can adjust to the desired angle. Not only does this benefit a patient cosmetically by allowing adjustment to the prosthetic heel to the shoe heel height, but it can also help foot balance and support the knee, improving the patient's gait.
ESAR multi composite	The foot uses nylon, glass fibre or other composites with flexible internal keel, a firm yet flexible plate located inside the sole of the prosthesis, extending from the heel to the toe. The keel is both a structural support and a shock absorber as the patient transfers weight from heel to toe while walking. The dual spring action of the keel gives a smooth transition from heel to toe as the foot moves through a walking gait, giving additional stability and confidence to its wearer.
Knee	
Locking	Unit is locked stiff at the knee unit when in use. The knee will not bend until a release mechanism is operated to free the knee lock
Friction controlled	Prosthetic knee unit which is controlled with friction functions within the unit
Pneumatic controlled	Prosthetic knee unit which is controlled with pneumatic functions within the unit
Hydraulic controlled	Prosthetic knee unit which is controlled with hydraulic functions within the unit
Pneumatic + electronic motor control	Multifaceted knee unit which consists of pneumatic chambers and externally powered to control the functioning of the unit
Hydraulic + electronic motor control	Multifaceted knee unit which consists of hydraulic chambers and externally powered to control the functioning of the unit
Single axis (Monocentric)	During the flexion/extension the prosthetic knee articulate rotationally around one knee axis
4-Bar linkage	During the flexion/extension the prosthetic knee articulate rotationally around four knee axis
Multi axis (Polycentric)	During the flexion/extension the prosthetic knee articulate rotationally around multiple knee axis
Hip	
Polycentric hydraulic hip joint	Multi-axis joint structure which produces three-dimensional hip movement through a hydraulic unit to compensate for pelvic rotation and promote a symmetrical, natural gait
Monocentric hydraulic hip joint	Single-axis joint structure which produces three-dimensional hip movement through a hydraulic unit to compensate for pelvic rotation and promote a symmetrical, natural gait
Extension assist hip joint	Single axis joint with possibility to adjust abduction/adduction, flexion/extension, and rotation to support natural gait
Single axis locking hip joint	Built-in manual lock which automatically engages in full extension to add stability and can be manually disengaged for sitting
Single axis elastic extension assist hip joint	Extension assist with laterally attached latex bands help with stride control, with adjustable built-in extension stop bumper

Liners	
Locking liner	Interface which acts between the residual limb and socket where the liner has a distal pin attachment area
Suction liner	Interface which acts between the residual limb and socket where the liner incorporates a seal-off area which creates suction suspension
Cushion liner	Interface which acts between the residual limb and socket. This is worn in conjunction with a knee sleeve
Knee sleeve	Sleeve worn over the prosthetic socket to create a seal between residual limb and prosthetic socket
Hybrid liner	Liner incorporating locking and suction suspension in one
Adjustable suction (includes ring and liner)	Suction liner which has the ability to adjust the area of suction depending on residual limb volume fluctuations
Distal volume cup	Item used for conical and/or sensitive residual limbs requiring volume build-up
Suspension components	
Hybrid lock	A combination suspension solution incorporating locking suspension with the benefits of vacuum suspension.
Active vacuum	Vacuum system that pulls vacuum in the socket using the energy created by stance and swing phase or from heel strike
Expulsion valve kit	Direct integrated system to create suction suspension via a valve setup within the lower limb socket
TF proximal socket seal-in ring for suction suspension	Sealing ring for use with TF suction vacuum sockets. Ring can be positioned manually to maximize area of the limb under suction or vacuum
Plug fit suction valve	Flat rubber valve manually donned in socket to created vacuum suspension
Pull in pvc tube	Tube breaching the gap between the socket and plug fit valve
Shuttle lock (pin/lanyard)	A pin or lanyard which attaches on the bottom of a liner which goes to a female receiver that is fixed within the prosthetic socket.
Magnetic locking system	A magnetic pin which attaches on the bottom of a liner which goes to a integrated magnetic female receiver that is fixed within the prosthetic socket.
Kiss locking system	Shuttle lanyard system for transfemoral amputees through housing receiver that is fixed within the prosthetic socket.
